Its Character Shows No Change From That of Whole Week.

FAVORABLE BANK STATEMENT

This Helps Resistance to Depression and the Close Is About Steady.

(By Associated Press.)

NEW YORK, Feb. 20.—The character of the stock market showed no change to-day from that of the whole week. The effects of the day's depressing factors were very moderate and were well registed. But ones the depression was waitemen, all interest in the market abruptly terminated. There seemed to be a walling demand for stocks on any declines, and no bisyers were at hand to follow any advance. The principal pressure upon the market came from foreign sources. This was well absorbed, and prices were at no time down to the London parity. The sentimental effect of the decided upset in the Paris and Berlin Bourses were very slight.

serimental effects in Fourses were very slight.

The favorable bank statement was a nelp to the resistance to the depression nere. The \$7.544.90 increase in cash was not unexpected, and is attributed to a return of money from the South, where the collapse in cotton speculation has detreased the immediate need. Some of the money sent to Bullimora is believed also to have come back. The loan decrease is evidence that corporation borrowings lave been largely supplied out of the previous loan expansion. It is probable at the proceeds of railroad loans are left on deposit with the banks pending the need for employing the fund, which are available to the loan market in the meantime.

The market closed about steady, and not far from last night's level.

Honds have been dull and heavy in a very narrow market.

United States twos and the old fours have advanced 1-4, and the threes, coupon. 1-2 per cent, on call during the week.

New York, Feb. 20.—Money on call

New York, Feb. 20.—Money on call nominal, no loans. Time loans easy; sixty and ninety days. 3 to 3 1.2 per cent.; six months 4 to 4 1-4. Prime mercantile paper 4 3-1 to 5 1-1 per cent. Sterling exchange find with actual business in bankers bills at \$4.85,125 to \$4.85,25 for demand, and at \$4.85 to \$4.85,25 for sixty day bills. Posted rates \$4.3 1.2 to \$4.55 and \$4.86 1-2, commercant bills 4.82 1-4 to \$4.82 3-1. Bar silver 53, Mexican dollars 43.

NEW YORK Feb. 20.—The statement of averages of the clearing house banks of this city for the week shows: Loans [91,143,180, decrease 55,531,100; deposits \$1,125,125,090, decrease \$185,500; circulation \$10,555,500, decrease \$145,500; legal tenders \$10,96,500, increase \$144,800; specie \$23,500, 100; increase \$7,555,200; reserve \$20,513,100, increase \$7,545,100; reserve required \$237,005,400, increase \$7,127,355; less united States deposits \$37,005,005, increase \$7,127,355; less united States deposits \$37,005,005, increase \$7,328,000.

NEW YORK Feb. 20.—The week in dry goods closes with conservative policy pursually by buyers, but there is no willingness on the fart of sellers to make concessions in view of the strength on the raw cotton market. The outlook is for hand-to-mouth trading, although jobbers' stocks are becoming materially depliced. It is evident that there are to be under the record of the processible for them to do so.

WHEAT.

The past few days have been of record prices and of record trading in wheat. The excited cables, strong advance in Europe and heavy trade in London carges, togother with the war news and the great strength of the American market, were all features incidental to the great advance in prices.

We have advised our customers and the public for the past SIX weeks that wheat would sell at ONE DOLLAR per bushel; the May option to-day sold at \$1.00. Our clients and all who have followed our advices have colord money. We still believe that wheat will sell VERY MUCH-HIGH-Bill. However, there will probably be considerable profit taking the first of the week, and on a break of from one to two cents, we advise the purchase of May and July options. We expect to see ONE DOLLAR and TWENTY-FIVE cent wheat, BUY WHEAT.

The market during the week has shown a decided tendency to advance. There was some halt in the upward trend of prices, brought about by cables, which were not up to expectations; the depression was only temporary, however, as Bulls again bought freely and there has been steady purchasing of May and July by the Bull leaders. There are a great many features in the market, both Bullist and Bearish, but well informed people think that the early Fibbruak smash was only part of the plan to awaken the Beers, and was intended to create a big short interest.

The appearance of the market suggests to us that such has been the case, and the bears and their following are coming in for a good part of the squeeze, Wa would advise the purchase of May and July options on any and all recessions.

The Northern Securities decision is expected to be handed down the early part of the coming week and there is less expectations of a favorable decision, and this has probably had more to do with the dullness of stocks than anything else. We believe this has been discounted, however, and that prices are dragging nearthe bottom. An enormous short interest exists in the market, and it is only a matter of time before they will run to cover. We look to see higher prices and sail recommand the purchase of the standard stocks, such as Union Pacific, Southern Pacific, St. Paul, Pénnsylvania, New York Central, Atchison, B. & O., L. & N., C. & O., Erle, Reading and Mannattan, on any further recessions.
